## Competition Format and Rules

Formato e regras da competição

As of WED 31 AUG 2016

### Paralympic competition format

The wheelchair rugby competition at the Rio 2016 Paralympic Games is one tournament, which is contested by eight mixed gender teams.

The teams are split into two pools of four for the preliminary phase. Each team plays every other team in their pool once, with two points awarded for a win and none for a loss. If there is a draw at the end of regulation time, then one or more three-minute overtime periods will be played, until a winner is declared.

After all pool phase games have been played, the two best placed teams in each group qualify for the semifinals. In the semifinals, the team that finished top of Group A plays the team that finished second in Group B, and vice versa. The winners of the semifinals then contest the gold medal match, the losers play for the bronze medal.

The remaining four teams will play classification games to determine the rankings from fifth to eighth. The teams that finished third in the pool will play for fifth and sixth. The teams that finished fourth in the pool will play for seventh and eighth.

### Tiebreaking

During the preliminary round the teams will be ranked according to the total number of points gained. If two or more teams are tied on points at the end of the preliminary round, ties will be broken as follows:

Any team to forfeit a match in the preliminary round is deemed to have lost the tie.

Points earned in the matches between the tied teams.

- Goal differences in the matches between the tied teams.
- Number of goals scored in the matches between the tied teams.
- Goal difference in all matches.
- Number of goals scored in all matches.

If another tie situation arises, subsequent to the resolution of an earlier tie, these procedures are to be used again, in order, beginning with the first. Full details can be found in the International Wheelchair Rugby Federation (IWRF) competition regulations, section 2.5.

### Sport rules and procedures

The wheelchair rugby competition will be held in accordance with the current editions of the following documents that are in force at the time of the Rio 2016 Paralympic Games.

- IWRF International Rules for the Sport of Wheelchair rugby
- IWRF Competition Regulations
- IWRF Classification Manual

All of the above are available for download at [www.iwrf.com](http://www.iwrf.com).

- The International Paralympic Committee (IPC) handbook (available at [www.paralympic.org/the-ipc/handbook](http://www.paralympic.org/the-ipc/handbook))

The IWRF, working with Rio 2016 wheelchair rugby competition management, will be responsible for the technical control and direction of the wheelchair rugby competition at Rio 2016.

### **Duration and scoring**

In accordance with IWRF Rules (article 51 playing time), wheelchair rugby games will consist of four periods of eight minutes. There will be breaks of two minutes after the first and third quarters, and a break of five minutes at half-time.

In case of a draw at the end of the regular playing time, an overtime period of three minutes will be played, and more additional overtime periods will be played until a winner is determined. There shall be a two-minute interval between the end of regulation play and the first overtime period. If additional overtime periods are required, there shall be a two-minute interval following each overtime period.

### **Changes since the London 2012 Paralympic Games**

Crossovers have been removed for those teams finishing third and fourth in the pool stage.

A random draw has been introduced by the IWRF to allocate teams into pools. This was done based on the world rankings as of 1 May 2016. See [www.iwrf.com](http://www.iwrf.com) for further information.

The global competition structure has been reviewed because more nations are playing the sport. A divisional structure has been introduced to enable nations to have a clear pathway regards qualification through to Paralympics and world championships.

## Competition Schedule
