Competition Format and Rules

Formato e regras da competição

As of WED 31 AUG 2016

Paralympic competition format

The equestrian competition at the Rio 2016 Paralympic Games will include five grades - Ia, Ib, II, III and IV - and comprise a team test, an individual championship test and an individual freestyle test.

For the team event, teams will consist of three to four athletes from the same National Paralympic Committee (NPC) and must include at least one grade Ia athlete, one grade Ib athlete or one grade II athlete. Teams may not consist of more than two athletes of a single grade. The result of the team event will be determined by adding together each athlete's percentage in the team event and the individual championship. The combined results of the top three athletes in each team will determine the team score. The team with the highest score will be the winner.

In the team test, which forms a preliminary round for the team championship, each grade competes separately. Individuals who are not members of a team must also participate in the team test, but their score obtained in this competition will not count towards a medal. Each rider and horse will perform a series of pre-determined movements, which will differ by grade and ability. Grades Ia, Ib and II will perform these movements in an area of 20m x 40m, whereas the arena for Grade III and IV will be 20m x 60m. The field of play will be surrounded by a low rail, along which eight (grades Ia, Ib & II) or 12 (grades III & IV) lettered markers will be placed symmetrically, indicating where movements are to start and finish, and where changes of pace or lead are to occur.

The individual championship test will be the final round of the team event and will also determine the medals for the individual championship. It will follow the same format as the team event, but with a different series of pre-determined movements.

The individual freestyle test will determine the medals for the freestyle championship. It differs in format from the other tests in that while the athlete is required to include certain mandatory movements, the form and manner of presentation is determined by the athletes, who may also choose their own music. The individual freestyle competition is only open to the best third of the athlete/horse combinations per grade of the total number of athletes (based on the total result of the team and individual tests), provided they have reached a minimum score of 58% as an average of the team and individual tests. Where a third of the class is fewer than seven athletes, then seven will be allowed to compete.

Sport rules and procedures

Scoring

A panel of five judges around the arena will assess the movements, awarding each movement with a mark from zero to 10 in half-point increments. There will also be collective marks awarded for the overall performance. The judges' scores will be totalled and converted to a percentage, and the rider with the highest percentage will be declared the winner.

Competition rules

The equestrian competition will be held in accordance with the editions of the following documents that are in force at the time of the Paralympic Games:

-
- The International Equestrian Federation (FEI) Para-Equestrian dressage rules (third edition, effective 1 January 2011, including modifications for 1 January 2016) (available at www.fei.org)
 - FEI Para-Equestrian classification manual (available at www.fei.org)
 - FEI regulations for equestrian events at the Paralympic Games, second edition (available at www.fei.org)
 - The IPC Handbook (available at www.paralympic.org/the-ipc/handbook)

FEI, working with Rio 2016 competition management, will be responsible for the technical control and direction of the equestrian competition at the Rio 2016 Paralympic Games.

Competition Schedule

Programação da competição

As of TUE 6 SEP 2016

Date	Start Time	Event/Phase
